ABOUT US

"The Key to Good Health is Zaituna Herbs"

Zaituna Herbs joins the ancient principles of Unani System of medicine with the latest scientific technology to provide the highest quality herbal supplements available. Physicians who believe in healthy living in body, mind, and spirit.

We also believe that maintaining the highest quality-control standards in the herbal supplement industry goes hand in hand with that Commitment. ZAITUNA Herbs has maintained these standards since it was founded and we are committed to continuing that tradition as We meet the needs of our customers in the years to come.

HEALTH

a state of complete physical, mental and social well-being and not merely the absence of disease and infirmity"

- Unani-tibb or Unani Medicine is a form of traditional medicine practiced in Middle-East and South-Asian countries. It refers to a tradition of Graeco-Arabic medicine, which is based on the teachings of Greek physician Hippocrates and Roman physician Galen and developed into an elaborate medical system in middle age era by Arabian and Persian physicians, such as Rhazes (al-Razi), Avicenna (Ibn-e- Sina), Al-Zahrawi, and Ibn Nafis.
- It originated in Greece almost 2500 years back, which is herbo- animo- mineral in origin (Approximately 90% herbal, 4-5% animal and 5-6 % mineral). It is not only the original science of medicine but also a rich store house of principles and philosophies of medicine which can be of immense value to the medicine in particular and science in general.
